Educational Qualification

Graduation

SEM	1	2	3	4	5	6	7	8
SGPA	7.87	7.30	8.15	8.17	Ongoing	-	-	-
CGPA	7.87	7.60	7.81	7.90	-	-	-	-

Higher Secondary & Secondary

Year	Degree/Examination	Institution/Board	CGPA/Percentage
2024	Class XII	Board of Intermediate Education, Andhra Pradesh	97.20
2022	Class X	Board of Secondary Education, Andhra Pradesh	95.17

Academic Achievements

- Secured 98.84 percentile in **JEE Main 2024** – AIR: 19,070 out of 1.4 Million eligible candidates.
- Achieved a rank of 550 in **AP EAPCET 2024** among 250K+ eligible candidates.
- Solved **300+** Data Structures and Algorithms problems across LeetCode , GeeksforGeeks

Skills Summary

- **Programming Languages:** C, C++, Python, SQL, JavaScript
- **Web Development:** HTML, CSS, Node.js, React.js, MongoDB, Next.js, Express.js, Tailwind CSS
- **Tools:** Git, GitHub, Linux, VS Code, MySQL Workbench, Postman, Render, Vercel
- **Core CS Concepts:** Data Structures and Algorithms, Database Management Systems, Operating Systems, Object-Oriented Programming, C/C++ Fundamentals
- **Non-Technical Skills:** Problem Solving, Communication, Time Management, Adaptability, Quick Learner, Work Ethic

Projects

Esports Analytics Dashboard— C++, Python, MySQL, PandaScore API | **GitHub**

- Developed a DBMS-based Esports Analytics Dashboard using C++ and MySQL to provide interactive analytics for teams, players, leagues, tournaments, and match statistics.
- Built an automated data collection pipeline by integrating the PandaScore API and VLR.gg web scraping, generating structured datasets containing **10,000+** match records and **15,000+** player performance entries.
- Designed and implemented a normalized relational database with multiple interconnected tables, utilizing Primary Keys, Foreign Keys, and SQL constraints to maintain data integrity.
- Developed a modular C++ application integrated with MySQL using MariaDB Connector/C to display real-time analytics in the command line.

Event Management Portal— MERN STACK , JWT | **GitHub**

- Developed a comprehensive Event Management System for NIT's annual fest using the MERN stack, supporting end-to-end event lifecycle management.
- Engineered role-based access control (Admin, Organizer, Participant) with an automated workflow for event creation, ticketing, and merchandise sales.
- Implemented a secure JWT authentication system, a live QR-code attendance scanner via device cameras, and event-specific real-time discussion forums, improving registration efficiency and attendee engagement.

My Portfolio — HTML,CSS,JavaScript,Node.js,Express.js, Resend API | **GitHub**

- Developed a responsive full-stack portfolio website showcasing projects, technical skills, coding profiles, and academic achievements with a clean and modern user interface.
- Built a Node.js and Express.js backend to process contact form submissions, implementing server-side request handling, input validation, and RESTful API communication.
- Integrated the Resend API using secure environment variables (.env) to enable real-time email notifications from the contact form without exposing sensitive API credentials.

Password Manager— MERN STACK, Tailwind CSS | **GitHub**

- Developed a full-stack Password Manager using React.js, Express.js, Node.js, MongoDB, and Tailwind CSS to securely manage website credentials through an intuitive web interface.
- Implemented complete CRUD functionality for password records with RESTful APIs, enabling users to add, edit, delete, and retrieve stored credentials from a MongoDB database.
- Enhanced user experience by integrating features such as password visibility toggle, one-click clipboard copy, toast notifications, and input validation for efficient and user-friendly credential management.

Extracurricular Activities

- Awarded prizes in group dance, swimming, carrom, badminton and athletics competitions at school and district level events
- Participated in community service initiatives, cleanliness drives, and social awareness campaigns, contributing to social welfare and community development.
